

Remarks/Arguments

The Examiner has stated on page 6 of the Final Rejection dated June 2, 2004 of the present application, that the prior art Taylor is distinct from the present invention if the present invention were to include the cited limitations. The Examiner has further stated that these limitations were not found in the previous claims. As such, the Applicant has amended the original independent claims 1 and 7 to reflect the limitations cited by the Examiner that will distinguish the present invention from Taylor. The Applicant further submits that the two additional independent claims 10 and 16 that have been added are also subject to the limitations as recited by the Examiner. As such, the Applicant respectfully submits that the present application is in a condition for allowance. Any questions regarding this application should be directed to the undersigned.

The Applicant respectfully requests a two month extension of time and authorizes that the appropriate two month extension of time fee be charged. The Applicant further authorizes an additional independent claim fee be charged.

Please charge deposit account No. 05-0877 in the amount of \$1308.00. This is for the RCE filing fee, the additional independent claim and the two month extension of time fee.
